

Infini Post-Treatment Instructions

- The areas will be red and may feel sun burned/warm. Small red bumps can form under the skin and you may notice “track marks” on the skin after treatment. This will resolve over a few days.
- Swelling may occur, this is normal and will reduce each day.
- Make sure to wear daily SPF.
- You may wear makeup the day after treatment.
- If peeling or flaking occurs, this will resolve over the next few days.
- You may repeat treatment in 4 weeks.

Use LifeLine stem cell product every 3 hours after treatment and at bedtime on treatment day. Use day and night thereafter.

Call our office IMMEDIATELY if you have any questions or unexpected issues after the procedure.
